- 11:35 **Network Optimisation – The Airport activity chain**
Airports provide access to and interlink regional, national and international markets. Investment in existing or new airport infrastructure is essential to economic development. Traditionally, airports were owned, managed and operated by governments but there has been a worldwide trend towards private sector involvement with varying degrees of private ownership and responsibilities, including the use of public-private partnership (PPP) models.

Keynote Address: *Michael Burns*, Partner, PwC UK

Airports Global Leader for the Transport & Logistics, and Capital Projects & Infrastructure
